

Migration Highlights ♦ Fourth Quarter 2003

During the fourth quarter of 2003, B.C. gained a total of 7,568 persons as a result of net migration from **all sources**, a four-fold increase over the same quarter of 2002. The higher net gain for the latest quarter was due to both increased interprovincial (from -862 to 1,600) and international (from 2,637 to 5,968) migration.

The net inflow of 1,600 from the rest of Canada was the first positive migration in the fourth quarter since 1996. The improvement resulted from net migration gains to BC from almost all provinces and territories.

As was the case in the third quarter, BC received more people from Alberta (199) and Ontario (1,151) than were lost to these provinces. The reverse was true for only Saskatchewan (-85) and the Atlantic provinces (-72).

2003 Q4 posted another net inflow from our major 'migration partners'

BC STATS

Net **international** migration to the province increased by over 100% from the fourth quarter of 2002, with a net inflow of 5,968 persons during the fourth quarter of 2003. Higher immigration to BC was the main reason for the improved net figures. Immigration in 2003 demonstrated the familiar pattern of high 2nd and

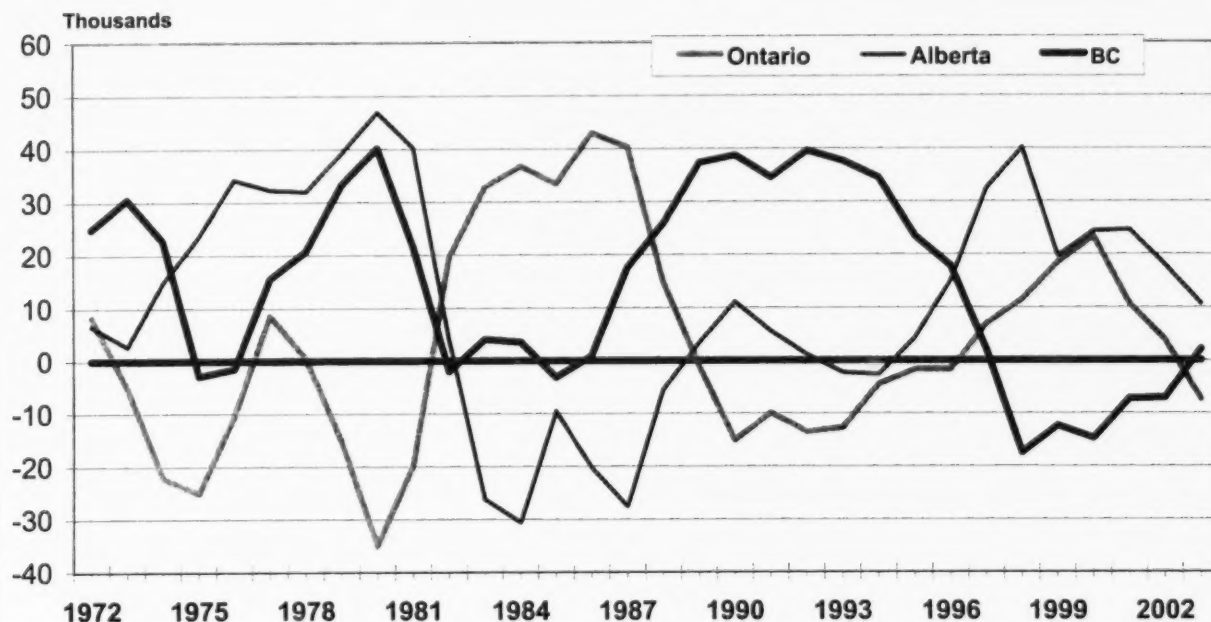

3rd quarters, and lower 1st and 4th. In the fourth quarter the number of immigrants to both BC and the rest of the country increased from the previous year, and B.C.'s share of all immigrants to Canada was greater than in the last two years.

Annual total net migration to B.C. was 29,345 persons, with a net inflow of 27,251 from international sources and a net inter-provincial inflow of 2,094 persons. This is the first annual positive net inter-provincial migration since 1997. Within Canada, Ontario was the primary source of population gain in 2003, with 2,974 more people moving from Ontario to BC than the reverse direction. Alberta, the Atlantic provinces and the Territories all were net recipients of migrants from BC in 2003, though BC gained population from Alberta in the last two quarters of the year.

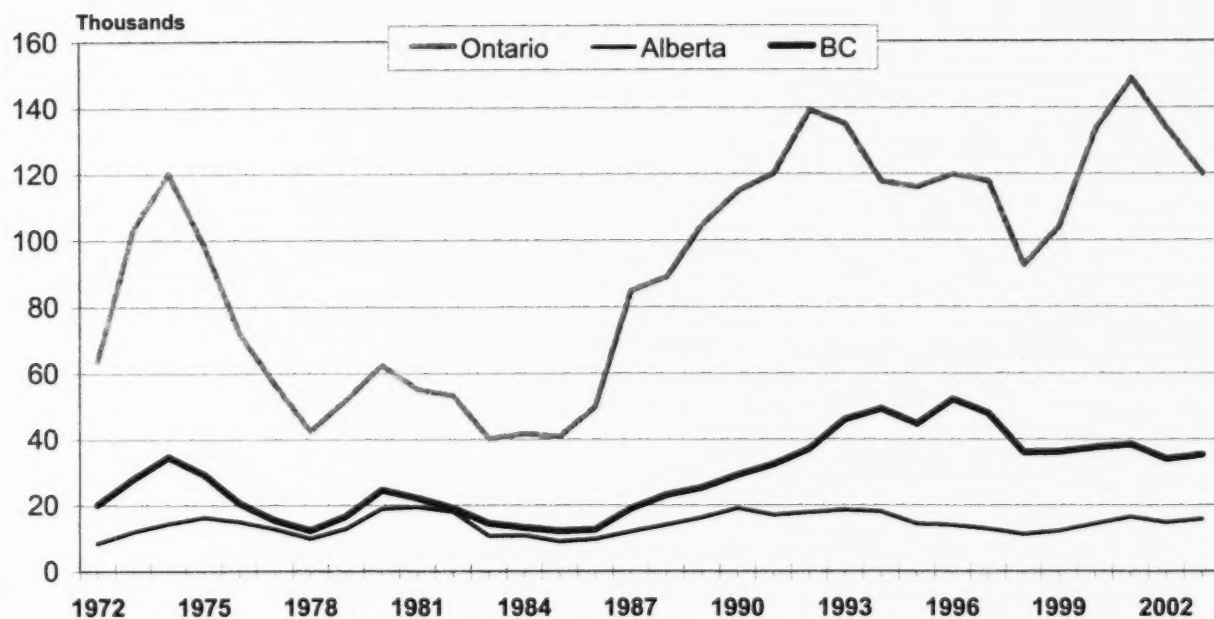

The annual British Columbia population growth increased to 1.0% in the fourth quarter. Alberta (1.3%) and Ontario (1.1%) both registered stronger annual population increases than B.C. Yukon had the highest growth of any region, at 2.7%.

Prepared by: Statistics Canada
 Date: 22 March 2004
 Note: Net N.P.R. - Net change in the number of Non-Permanent Residents
 Due to revisions on the part of Statistics Canada, the sum of the components may not equal the population change
 All figures subject to revision

Table 5
Quarterly Components of Change Per 1000 Population for Canada

Table 5 Quantity Components of Change Per 1000 Population for Canada																		
Year	Quarta	Interprovincial Migration				International Migration				Natural Increase				Total		Population at End of Period	Annual Growth Rate (%)	
		In		Out		Net Migration	Immigration	Emigration	N.P.R.	Net Migration	Temp. Abroad	Returning Emigrants	Births	Deaths	Natural Increase			Total Increase
